

## Oikos on Canvey Island

Oikos is committed to supporting the wider local community and neighbours that surround our site. This is reflected in our proud sponsorship of Canvey Island Football Club (FC).

For generations, Oikos has maintained its connection to Canvey Island and the local area, as we have contributed to the growing importance of the local area to national fuel security and the UK economy.

### Q7: How do you think that Oikos can continue to make a contribution to Canvey Island?

### Q8: Do you have any further comments that you would like us to take into account?

## Have Your Say

Oikos Storage Ltd is proposing to expand and extend the operational efficiency of its harbour facility on Canvey Island. This will maintain and protect its ability to provide **a resilient supply of essential fuels and liquid bulk products** across the UK.

## About Oikos and the OMSSD

Oikos is a nationally significant bulk liquid, oil and fuel import and storage facility. We have been operating since **1936** on Canvey Island. For over **80** years, we have been importing, handling, storing and delivering our products safely and securely and have an excellent track record in health, safety and environmental practices.

- Word of mouth

**Q4: Have you found the information displayed today helpful in answering any questions you might have had about the OMSSD?**

The Oikos facility is a vital part of the UK's infrastructure for diesel supply and aviation fuel supply for major airports including Heathrow, Gatwick and Stansted.

In recent years, a number of UK oil refineries have closed or reduced their output. As a result, the nation is increasingly reliant on fuel which is imported into the country – facilities able to meet this need are of significance.

**Q5: Do you view the security of UK fuel supply as an important issue? Please explain your answer in the box below.**

- Yes
- No

### What we're considering

To inform the project and as part of the preparation of the application, detailed studies must be carried out to understand potential impacts on local people and the environment and we have appointed a team of specialists to do this.

**Q6: Which issues are most important for us to consider as we develop our proposals for the OMSSD? Please comment on what you would like us to consider in the box below.**
